Our estates are under fire  
Our villers fall prey to pillage  
How can we stay on the sideline  
How long will we take this lying down?

Refuse to quell the anger  
Time has come to take up arms again  
The last call to rise up

Bestir  
This is the flash of our last hope  
Will you ally with us?  
Wake up  
Open your eyes  
Reach out  
And seize the golden venture

We've lost ourselves in strife  
While the raptor unopposedly  
Clatus at Gallia's free lands

We have to call a halt of this  
Unite the tribes and rise  
Take a look around yourself  
And see this time is ours

The last call to rise up  
(Rise up, rise up, rise up)

"Chieftains  
The eagles empire stretched out its talons for our  
lands  
Bribing us, threatening us  
Today we are gathered here, all my countrymen  
And still some of you hesitate  
You are so solicitous about your state in the Roman  
empire  
And while you fight among yourselves for Rome's favor  
An even greater vision is crying out to be seen  
A country of our own  
A free Gaul

Let us stand against the eagle  
Unite the tribes"

Whoa

Our lands are under fire  
Our villers fall prey to pillage  
How can we stay on the sideline  
How long will we take this lying down?

It is time to join forces  
Let the eagles beak burst on our shields  
Unite, this is Gallia uprising

Bestir  
This is the flash of our last hope  
Will you ally with us?  
Wake up  
Open your eyes  
Reach out  
And seize the golden venture

Bestir  
This is the flash of our last hope  
Will you ally with us?  
Wake up  
Open your eyes  
Reach out  
And seize the golden venture
