For years disguised smiles were the only friends for
me for years I thought they were for real
I closed my heart and with my hands I fooled myself
Leaving me a pearl without a shell

Then I woke up, then I woke up and found all that I left
behind I'm packing it all, and leaving with you

[Chorus:]

So close your eyes and take my hand now I'll take you
to my dark wonderland a place you'll never want to
leave ? a place you'll never want to leave tonight
I will caress you all the night and day whisper sweet
words every day captive in your arms, your prey ? in
your arms a prey tonight

I'll dig a place so far from here
A hole to hide my love, to save what's left of me

They put me on trial after the sentence had been
sealed with dismal glances ill-concealed a crow was
flying in the rainy sky that night bringing good news,
not a fright

The underdog, the last in line, oh please stop all this
wicked whine I'm packing my things, and leaving with
you

[Chorus:]

So close your eyes...

After all we went through Can you feel me deep... I
dedicate this night to you

'Long all the miles I've been walking
The tears have counted my progress
Please touch my heart... together we will fix this silence
In this dark sweet fairytale
They ran out of happy endings
Please touch my soul... we can re-arrange all this
nightmare

[Solo: Rafahel, Aydan]

[Chorus:]
So close your eyes...
