

Elvis Costello "Call On Me"

Visit "[Call On Me](#)" on MotoLyrics.com

Everyday seem like Sunday
It must be something that I have done
I saw you dancing in the peep-show
That every episode is leading me on

I'm just another fool that you've got to humor
Can't say I love you when it's just a rumor

But if none of your dreams come true
You can call on me, call on me
'Cause I've seen dreams have a happy ending
Disappearing on my TV, and you can call on me
You can call on me, you can call on me, you can call on
me

When I go home I watch the television
I go to sleep I dream about the television
I go to work I talk about the television
I used to think that love is something that it isn't

Sometimes I feel just like a human being
That's just something between you and me

But if none of you dreams come true
You can call on me, call on me
'Cause I've seen dreams have a happy ending
Disappearing on my TV, and you can call on me
You can call on me, you can call on me, you can call on
me
