I remember that dance  
On the roof of my car  
When St. Lucy's mad torch  
Took away our best bar

Say we drank  
And we prayed  
Some just sat like a choir  
Came the smoke  
In the night  
Came the heat  
Came the fire

Ember glow lagered ash  
I was pissed as a fart  
Stricken some dumb plum numb  
We was broken at heart

Say we drank  
And we prayed  
Some just sat like a choir  
Came the smoke  
In the night  
Came the light  
Came the fire
