Dream myself alive  
I dream myself alive  
You can't deny  
There's something dark  
Against the light  
All i can say  
It doesn't have to be this way  
We'll be chasing our tails madly  
See days pass like wildfire  
Right from the start  
I knew this world would break my  
heart

I dream myself alive  
Dream myself alive  
I dream myself alive  
Break my heart  
And dream myself alive  
What can it mean

I'm drawing pictures of the sea  
Right from the start  
I knew this girl would break my heart

Dream myself alive  
Dream myself alive  
I dream myself alive  
Dream myself alive  
Dream myself alive  
I dream myself alive
