Red lips, red nails
Tore out my heart and put me through Hell
I used to love her
But now I hate her
I want revenge against my betrayer
I'm through trying
Tired of her lying
I'm finished crying
The last sound you'll hear is going to be you dying

Black hair
Long legs

That woman loved to see me beg
She's got a problem with her brain
She just wants to drive me insane
I'm through trying
Tired of her lying
I'm finished crying
The last sound you'll hear is going to be you dying
