With a thousand kisses  
Every moment is all mine  
come back this time

With a thousand kisses  
one at time  
you brought me crime

Every minute is mine

With a thousand kisses  
--- I'm away  
you brought me down

With a thousand kisses  
every second I think of you  
come back it's fine  
bring some wine  
and leave my mind  
forever

With a thousand kisses  
we share I don't care  
I wish you down

With a thousand kisses  
every second I think of you  
come back it's fine  
bring some wine  
and leave my mind forever
