### "City By Night"

When shadows beckon on dim-lit avenues  
Night people hear the call  
From hidden alleys, secret rendezvous  
They come out one and all

The city by night I'm wide awake  
It never sleeps make no mistake

Whatever sets off the spark  
A magic glow lights the dark  
Then I'm intrigued by the sight  
Of the city by night

Those crowded nightclubs  
Those picturesque cafes  
Are scenes no-one forgets  
And I'm enchanted, music softly plays  
By dancing silhouettes

The city by night I'm wide awake  
It never sleeps make no mistake

The evening's full of surprise  
It's magic opens my eyes  
And I'm intrigued by the sight  
Of the city by night

Yeah!
