### "This Is Our Dance"

We had a real good evening  
Now all our friends are leaving  
Soon we'll be alone  
Wait till everybody has gone  
Then play just one more song

'Cause this is our dance  
Darling remember, it's our dance  
Loving and tender  
I'll take you away, take you away  
In my arms  
Yes this is our dance, now we're together  
For our dance can't last forever  
And nobody knows just what tomorrow will bring  
So let our dance begin

We'll turn the light down low now  
I'll never let you go now  
You're here in my arms  
And when I hear you whisper you're mine  
We'll play that song just one more time

'Cause this is our dance  
Darling remember, it's our dance  
Loving and tender  
I'll take you away, take you away  
In my arms  
Yes this is our dance, now we're together  
For our dance can't last forever  
And nobody knows just what tomorrow will bring  
So let our dance begin
