"Tonight's All Right For Love"

Visit "[Tonight's All Right For Love](#)" on MotoLyrics.com

(words & music by wayne - silver - lilly) Hold me tight
the moon's so bright Tonight the night is right for
love As warmed by one as stars are bright I hold you oh
so close my dear Things could be that magic kiss That
night of this we've waited for Oh we could fly right up
to the sky How real it all seems to me That summer night
dream to me Can't you see that tonight's all right for
love Oh we could fly right up to the sky How real it all
seems to me That summer night dream to me Can't
you see that tonight's all right for love
