I just thought I heard a small voice crying  
Looked again and saw that it was me  
I feel like a little boy denying  
That he fears the night 'cause he can't see

Then a larger thought, said, stop your crying  
Don't be scared to search 'cause you may find  
Fate holds out a candle for your footsteps  
Time rolls back the shadows of your mind

It's a long, long lonely night  
You can make the morning if you try  
It's a long, long lonely night  
Oh, we can make the morning if we try  
Girl, we can make the morning, you and I  
Together, together, together  
(Together, together, together)

Loneliness is darkness' first companion  
Spend the night alone and faith may bend  
Share it all and see how fear starts fading  
Chase away the shadows with a friend

Dawn's elusive light is just beginning  
Now the day can push away the night  
Dreams can make the sun feel much brighter  
Hope creates a foothold for the light

It's a long, long, lonely night  
We can make the morning if we try  
It's a long, long, lonely night  
We can make the morning if we try  
Girl, we can make the morning, you and I, oh  
Together, together, together  
(Together, together, together)

It's a long, long, lonely night  
We can make the morning if we try  
(We can make it)  
It's a long, long, lonely night  
We can make the morning if we try  
(We can make it)

It's a long, long lonely night  
We can make the morning if we try  
(We can make it)  
It's a long, long lonely night
