(words & music by o'curran - brooks) Oh I will never
forget the first night we met Was love I was searching
for My heart beat faster and faster, oh so much
faster Faster than it did before juntos
estaremos Siempre por siempre Junto a mi
corazon Siempre estara's We'll be together, and
love forever Nothing can change our destiny I knew the
moment I kissed you, couldn't resist you Together we
belong And then I knew in that moment just what this
glow meant True love had come along We'll be
together, ever and ever, close to my heart You'll
always be. We'll be together, and love forever Nothing
can change our destiny
