star twinkle twinkle bright
im in love with you tonight
ive been sittin here at home
starting at that telephone
shaking up boxes of letters
mementos in my old brown sweater
thinking about those days of old
and oh how it touched my soul
it could have been a simple story, sittin in the morning
glorys
im in love with you tonight, come on lets make it right

heeeey, we gonna ride the little red wagon
we gonna ride the little red wagon through the clouds
and show you that i love you
said heeeey, we gonna ride the little red wagon
we gonna ride the little red wagon through the clouds
and show you that i love you

remeber when we blew the horns
we go silly on the phones
friday night dance hall song
a lot of love it kept me singing
it reads like a story book
confused and ive been mistook
your star twinkle twinkle bright
im in love with you tonight
it could have been a simple story, sittin in the morning
glorys
im in love with you tonight, come on lets make it right

heeeey, we gonna ride the little red wagon
we gonna ride the little red wagon through the clouds
and show you that i love you
somebody said heeeey, we gonna ride the little red
wagon
we gonna ride the little red wagon through the clouds
and through the sunshine so i show you that i love you

now im here hating those crooks
they stole your heart and left me shook

and im swingin on the front porch baby
im just thinkin about you driving me crazy
i know they say the grass is greener
my love is lost, have you seen her?
your star twinkle twinkle bright
im in love with you tonight
it could have been a simple story, sittin in the morning
glorys
and im in love with you tonight, come on lets make it
right

heeeyy, we gonna ride the little red wagon
we gonna ride the little red wagon through the clouds
and show you that i love you
somebody said heeeyy (hey), we gonna ride the little
red wagon
we gonna ride the little red wagon through the clouds
and show you that i love you
