silly girl (silly girl), never said a word
she left work early, took off like a bird (off like a bird)
and no one knows just where she went (where she
went)
all they know they havnt seen her since (havnt seen her
in a long time)
i want to dance with that silly girl (silly girl)
shuffle step with a twist and a twirl

[CHORUS]

so inside me she, walks with her hands beside her
takes her time and she, makes her best steps last
forever

long days and cold nights
shes home sick with no highlights
and everyday its the same old thing
theres a lot of love in the cards they bring
a silent movie, a lot thats gone
and frame by frame takes away this lifeless way

[Chorus]

ooh
oh forever

she wont ever die, youll never catch her cry
she hides her eyes when she says her goodbyes
shes in my mind and i know shes in my heart
its back and forth and still we'll never be apart

i want to dance with that silly girl
we shuffle step with a twist and a twirl

[Chorus] x2

oh forever (to end)
