Suburban devils  
The darkening skies  
Damaged sanity disciples  
The gathering of raging tribes  
Believe in nothing  
Drained youth brigade

The cruel deal is done

Street hate inferno  
We are the cancer - all sins and vermin  
This modern death  
Create infection - twisted design  
Men without eyes  
Speak with the dead  
Despise the norms - fuel fire for war  
We are the blind leading the numb

[Chorus:]

Brand new sickness intoxicates  
The poison convulse  
Bury your hope and holy cross  
We take you back to hell

System has failed  
Black dawn disaster - blind race offering  
The burning times  
Blood superstition - rotten rituals  
New killing season  
Machine flesh crushing  
Chaos extreme - shotgun messiah  
This is the haunting - your favourite nightmare
