calm lovers' crash  
both swallowing pain  
wound & scar industries  
intense indifference

I'm a jester puppet  
squalid crumbcollector  
hard hours' theorist  
stiff pattern reactor

and I struggle for the air  
in my lunatic asylum  
small breathless space  
shy irony king  
that's what I am  
you crawl in loss for words  
drownin' in despair  
innocence's torn  
with pills, drugs & guns

you feel like live on  
with storms by your side  
at neon flames horizon  
there's nowhere to hide

now!  
look what you've done  
tell me what went wrong

deep under my skin you creep  
poison slowly flows  
staring at those hollow halls  
slippery shifts, digged out distrust

never wanted this way to end  
never thought this heart's so cold

seems everythings we had is gone  
all love is dead  
we fall

sympathy's lost

display no regrets  
hear no honest truths  
anger overflow

fragile sunny moments  
unfairly erased  
half - speed discouragement  
toxic shock syndrome

you feel like live on  
with none by your side  
down on my knees I've realised  
you're fuckin' waste of time

the winners of a losers' cup  
more still come to after the break
