I Find myself into the Darkness
Shadows were in my side

You've light my life completely
Of your presence in my mind

Pieces Of Memories can back together
Together Please...

Don't Leave me baby
Cuz my heart is now in bleeding
Stay with me baby
You are the reason why I'm still living

The Way you talk to me
My mind just Silences, silences

I'm Tired of waiting for you
Trying to be, what you want

Repeat Refrain & Choros

Repeat Choros
