[Music by: Fleming, Lesniak, Stewart]

They live on fear, feed on flesh, a massive human
barbeque
He wears the peeled off faces of his victims as he
tortures you
They've committed crimes you'll never solve in a
million years
He kills them off, sawed apart, one by one they
disappear

Who will survive and what will be left of them?
Murders that never made no sense, scourged of your
innocence

Unsuspecting he entered the farmhouse and took a
mallet to the head
His girl was next, she was placed on a hook, left to
bleed her dead
The next piece of fuck took a sledgehammer and
crumbled to a fade
The invalid took the chainsaw, he was hacked up just
the same

Chainsaw rips through flesh and bone with so much
ease
Skulls made into ornaments, scourged of your
innocence

Slaughtered like an animal, skinned alive by cannibals,
a brutal grizzly way to die
Horror house of your demise, a mallet to the fucking
head, convulsing
Puking bloody red, put inside the freezer bed, hacked
apart so they are fed
Lured inside there, one by one, underneath the desert
sun, tortured for psychotic fun
The saw is family they are one, cut apart for barbeque,
made into a human stew
Slaughtered like an animal, skinned alive by cannibals

Who will survive and what will be left of them?

Murders that never made no sense, scourged of your
innocence

The only survivor of that night of terror told a tale of
macabre and madness
She said she broke out of a window in Hell, screaming
bloody murder
The authorities searched endlessly but they never
found a trace
But you know that if he finds you that he's sure to beat
you down
And peel back your fucking face
