"Own It"

I've had enough, I've had enough of dis traction. Feel my bones, dey're a little mal-aligned. Out of line. I've had enough, I've had enough of DISTRACTION! I wanna feel my eyes firmly on the road - It cuts down my accident ratio. You've gotta keep your eyes on the road, keep your hands to yourself because you buy what you break and then you Own It. And then you've got something to remind you - "To remind you of the mess you left when you went away..." - Wrong song, I can't live inside someone else today, get outta my way, you're clouding my focus. I once heard my lover say: "An obstacle is what you see when you take your eyes off of your dream." You know, she's right. The peripheral: it is getting a little too personal, getting a little closer. Don't think about it, don't think about it! I want to feel my eyes firmly on the road. Take a Right, Get it Right, FIGHT...You've got to keep your eyes on the road...because you buy what you break and then you Own It.
