Summertime... Lick your lips  
Summer time  
Curl your callused fingertips around the sound of  
Summertime... Lick your lips  
How can we possibly employ a better mood altering  
incense  
Than this is love intense, this joyous noise?  
Better than a sold-out gig with double encore and  
magic in the wings.  
But I can make you have a double encore too!  
And I can make you sing, and magic is stoking you in  
the....  
Summertime... Lick your lips  
Summertime... Lick your lips  
I just got back from a trip to the mirror  
Unpacked my baggage and sorted my fears  
Into neat little piles to be put away  
Because I am here, I am here and I want to stay.  
Please don't doubt it!  
But I can make you have a double encore too  
I can make you sing (uh-huh)  
I am thrusting your words straight back through the  
skin of their sounds  
I am exposing your square, scared thoughts as round.  
Please don't doubt it.  
Summertime  
Lick your lips, Lick your lips, Lick your lips...
