Assembly line, humans  
Pumped with lies  
Line them up, load them tight  
Packed like cigarettes  
A new committee  
To breed lukewarm souls

Get off my back  
(Please)

Swallow your pride  
And gag

Harriet tubman  
Will you set the captives free  
To the underground?

Take long drags on yourself  
With cracker-jack poses and smiles  
Another snubbed beneath your toe

Get off my back  
(Please)

Swallow your pride  
And gag

Harriet tubman  
Will you set the captives free  
To the underground?

Assembly line, humans  
Pumped with lies  
Line them up, load them tight  
Get off my back
