Casualties of a non-war  
Shooting themselves in the feet  
Let me pray before you crush my heart  
And you swear that you do this in God's name  
Stifling the Psalms of the heart  
Take your hands off my throat, let me breathe

I'm suffocation  
You slash my wrist  
Gave me a network  
And devoured my art  
Broadcast worldwide healing those for a price  
And you swear that you do this in God's name  
Stifling the Psalms of the heart

Casualties of a non-war  
Shooting themselves in the feet  
Let me pray before you crush my heart  
Let me pray before you crush my heart  
Let me breathe
