

Embodiment

"Free Ride"

Visit "[Free Ride](#)" on MotoLyrics.com

I want a free ride
Just to see what it feels like
But even if it feels right
I'm no fool
In the hospital where stretchers
Are arms and hands
I needed someone who could understand
Although these things they
Are never planned
I wanna feel
Something for free

I want a clear view
With nothing there that I can't see through
'cos everybody wants to understand
In the hospital where stretchers
Are arms and hands
I needed someone who could understand
Although these things they
Are never planned
I wanna feel
Something for free
