your secrets safe  
cause you keep it inside  
so nobody knows what you've done  
but you can't hide you can't run

I know what's going on with you baby  
I know what's going on

I shine a light on the fact that you lied  
can see that your fooling no-one  
cause everything you've done is wrong

I know what's going on with you baby  
I know what's going on

I know what's going on with you baby  
I know what's going on

your secrets safe  
cause you keep it inside  
so nobody knows what you've done  
but you can't run you can't hide

I know what's going on with you baby  
I know what's going on  
I know what's going on with you baby  
I know what's going on  
I know what's going on with you baby  
I know what's going on
