"It's Alright"

Visit "[It's Alright](#)" on MotoLyrics.com

Push the child into the wheel
Make your memories long
Take the leap into the space
Don't look back in fear

Now hear my voice
Baby, I made it, and it's alright
And I don't want it to end
Oh, baby, I made it, and it's alright
And I don't want it to end

Chase your prize on through the grave
Live beyond your dreams
Seize the day and ride the wave
Claim your destiny

Now hear my voice
Baby, I made it, and it's alright
And I don't want it to end
Baby, I made it, and it's alright
And I don't want it to end

I reached beyond tall fables
Vultures by my window
Camera flashes daily
Caught in the glare

Welcome home! Welcome home!

Baby, I made it and it's alright
And I don't want it to end
Baby, I made it, and it's alright
And I don't want it to end

And I don't want it to end, no
And I don't want it to end, no no
And I don't want it to end, no
And I don't want it to end
And I don't want it to end
