Hold this sanity within your hands
Demons tease and migrate, soar on wings
But you my guardian angel pull me through
Stay darling, giving up, giving in

Kiss your lover
Nylon barricades and window
Soul Red Cross meetings daily ground this root
Clever thoughts like you and me make us stay
Darling, giving up, giving in

Kiss your lover
Stay, I'll find you home be not far from me
Roll the stone, the sun has brought the day
Cradle nothing in the arms of peace break time
Lather, ointments aren't healing
