your individual erodes doing saying what you're told /  
perception of reality is destroyed / blinded submission,  
consumption with reason, brainwashed, corrupted and  
controlled / oppressed slaves to your aggression,  
driven / absolute control is a must / the life you once  
new imagination victims of one enemy / new is all you  
know old is forgotten / religious infamy turn away it will  
set you free / bonded by hate break the chains of your  
spiritual state / what you seek is the truth in the  
darkness nothing is pure / once you see what they hide  
you are the one they truly despise / born again into a  
life without conformity / innocent lives brought into  
strife imbed impurity / the planted seeds it's roots will  
grow in which by means to feed / uplift the roots regain  
your soul declare your right to live / to fit scripture in  
the end will be their own demise / false religion i  
despise new age never fastens it's grip on me /  
predictions of falsehood wallow in the flames / as you  
watch your false prophets die / i will never leave my  
doctrine / the truth shall set you free / fallow unto me  
there is truth in my deception / false reality truth  
surfaced need for correction / religious infamy turn  
away it will set you free / bonded by hate break the  
chains of your spiritual state / what you seek is the truth  
in the darkness nothing is pure / once you see what  
they hide you are the one they truly despise
