Three is the magic number
Yes it is it's a magic number
Somewhere in this ancient mystic trinity
You got 3 as a magic number

The past and the present and the future
Faith and hope and charity
The heart and the brain and the body
Give you three as a magic number

Takes three legs to make a tripod and to make a table
stand
Takes three wheels to make a vehicle called a tricycle
Every triangle has three corners, every triangle has
three sides
No more no less you don't have to guess
When it's three you can see it's a magic number

A man and a woman had a little baby, yes they did,
They had three in the family and that's a magic number
Whaoo

3 6 9 12 15 18 21 24 27 30
3 6 9
12 15 18
21 24 27
30

Now the multiples of three come up three times in each
set of ten
In the first ten you get 3 6 9
And in the teens ten you get 12 15 & 18
And in the twenties you get a 21 24 27
And they go down even on 30

Now multiply backwards from 3 time 10
3 times 10 is 30
3 times 9 is 27
3 times 8 is 24
3 times 7 is 21
3 times 6 is 18

3 times 5 is 15
3 times 4 is 12
And
3 times 3 is 9
3 times 2 is 6
And
3 times 1 is 3 of course

Now repeat the whole pack again

(3) 3 6 9
(12) 12 15 18
(21) 21 24 27
(30) 30

Now multiply backwards from 3 time 10

3 times 10 is 30
3 times 9 is 27
3 times 8 is 24
3 times 7 is 21
3 times 6 is 18
3 times 5 is 15
3 times 4 is 12
And
3 times 3 is 9
3 times 2 is 6
And
3 times 1 is the magic number

A man and a woman had a little baby, yes they did,
They had three in the family and that's a magic number
