i had a feelin we're losing  
and there was a reason, treason-denial  
i had a feelin they're waiting...they're waiting  
raising up our hands  
white flag high  
in a day you can say you own it  
draw the line and define your behavior  
i'm not like you, i won't be you  
analyze all the lies you're promoting  
i had a feeling we're cheatin  
one has to make it, take it, or prove it  
i had a feelin it's over  
raising up our hands  
white flag high  
in a day you can say you own it

draw the line and define your behavior  
i'm not like you, i won't be you  
analyze all the lies you're promoting  
i'm not like you, i won't be you, i'm not like you  
we're at the end, the final lap, it's so alarming  
we made a case, turned a cheek, but who's responding  
tell the truth, don't delay, so are you buying?  
burn the bridge, take the loot, hit the target
