No you're not alone,

Cos everybody's out there on there own.

And you were one of the scene,

Trying to be like no ones ever been.

Everybody knows that that's the way it goes and that's
alright with me,

I've got time.

You try so hard, you get it wrong,

You can't deny the feelings gone.

Its time you got the luck that you need.

So keep holding on and the time will come,

You'll jump right up and find your back on top of the
world.

Sure in time you'll be heard, and say.

Come on, everybody knows you are meant for better.

And say what you mean or you wont mean a thing to
me.

Come on, everybody ignores you now but soon your
time will come.

Yeah they will know who you are.

No your not alone, cos everybody's out there on their
own.

And you were always the same,

Trying to be like no one's ever been.

You try so hard you get it wrong,

You can't deny the feelings gone,

Its time you took a look at what you need.

So keep holding on and the time will come,

You'll jump right up and find your back on top of the world.

Sure in time you'll be heard, and say.

Come on, everybody knows you are meant for better.

And say what you mean or you wont mean a thing to me.

Come on, everybody ignores you now but soon your time will come.

Your on top of the world,

Sure in time you'll be heard, and say.

Come on, everybody knows you are meant for better.

And say what you mean or you wont mean a thing to me.

Come on, everybody ignores you now but,

Know it's not the end of the world,

Sure in time you'll be heard, and say.

Come on, everybody we know you are meant for better.

We know you are meant for better...
