hail,hailthe warmongers screams
in the name of thy gods
forward into battle with the alliance of the
chaos-engine
grinding their enemies into pieces
drinking their warm blood

destroy command they ablazed the fire
destroy command people are in desire

hail, hail victory! spill the bloodhail and
kill destroy command

with total power and might they ram down
the walls
of the weak castles

hail, hail victory! spill more bloodhail
and fucking kill!
destroy command

with total power and might they burn down
the symbols of christianity

hail,hailthe warmongers screams
in the name of thy gods
forward into battle with the alliance of the
chaos-engine
grinding their enemies into pieces
drinking their warm blood
