In danger to start a futile war  
They think to make some sewer laws  
Conceivable - false thoughts produce a reaction  
Serious - be able to erase a civilisation  
Thoughtful - to hope to get a peaceful life together  
guess - what happens and better remember  
Tantalizing and bled - THE GREED  
The commonsense is captive of confused souls  
The tale will often change their rolls  
Determined of an authority mightier  
as mankind will imagine  
The power prevents the incurable corpse  
The corpse of a technology who killed all humanity  
Tantalizing and bled - THE GREED
