Guarantee its just a crutch
For you if you can't handle drugs
That's why I'm going out on a limb
Cause that's where all the fools

Prejudice is as strings
For all you muppets to cling
Cause you're all in a sting
And loves a state of being

Don't need to travel round the world
To realise the sky is blue
Everywhere where ever we move
Feelings of approve

Peace will open your heart
When we in happiness come
Go on and treat yourself
To a face lift and smile

Come on and smile
Come on and smile
Come on and smile
