Deliver Me

I wish, I had a time when I could do all this  
Just give me one last wish,  
and make it come true so I get a rest

I wish I had you on my side,  
I miss my life just being a ride  
I wish I'd seen you in July,  
I'd say it's time that you

Deliver me,  
now I know what being without you means  
Now now now,

won't you come deliver me,  
and come and take me where you're going to be

I need more time,

to clean my system of it's lows and highs  
With your little white lies,  
you used to shine but now I see your disguise
