

Embrace "Fireworks"

Visit "[Fireworks](#)" on MotoLyrics.com

I stretched over to reach you
I tried to meet you, I've been wrong
Now the fireworks in me are all gone
It's time I realised
My girl you make all the smart moves
When you see through all my wrongs
When the fireworks in me are all gone
Then I realised
And I won't need convincing
I've seen enough to want to try
And change things
You fell in love, I fell in line
I thought I found my place
Before I knew how much it cost to play it safe

Have I let you,
I'll never let you down.
I work all day and I won't find
When it feels right and its wrong
When the fireworks in me are all gone
Then I realised
And I won't need convincing
I've seen enough to want to change things
You fell in love, I fell in line
I thought I'd found my place
Before I knew how much it cost to play it safe
Could I leave you,
I'll never let you down.
