Like a fish I'll climb a mountain  
While the others swim in the sea  
You can drag the lake I'm in  
But you'll never catch me

I know you got to thin the numbers  
I'm just sick of being told  
'Cos it's like a month of Mondays  
Waiting for the last throw

Everything is falling  
All I hear is noise  
Everything is falling  
All I hear is noise

You got me working soldier's hours  
Though I do it for myself  
'Cos all the people have the power  
Until you see it yourself

Everything is falling  
All I hear is noise  
Everything is falling  
All I hear is noise

Like a fish I'll climb a mountain  
While the others swim in the sea  
You can drag the lake I'm in  
But you'll never catch me

Everything is falling  
All I hear is noise  
Everything is falling  
All I hear is noise

Aim low hit low  
Aim low hit low  
And we'll give you back your halo  
For your flaming red hair
