I don't know
About the way you're gonna go
Just get on board
Put your foot to the floor
'Cos the time is going to go
Make no bones
About the way it's done
You followed the tide
But you're towing the line
But the tides
Get too strong
Hang on to your life
Don't let it fade too fast
Sit yourself down to recover
Take another chance my brother
Don't let it get you down
Change is sweet
So get up off your feet
You've got no time to keep living a lie
'Cos your heart is cut too deep
Hang on to your life
Don't let it fade too fast
Sit yourself down to recover
Take another chance my brother
Don't let it get you down
The change is sweet
The change is sweet
The change is sweet
The change is sweet
