Know that I went as high as I could go on my first time.

Where is the fun if your feelings are left behind.

And it's your right when you mean it,

To find the proof and make me hear it.

Cos when I am wrong I don't see it anymore.

Cos I feel like a fake when I feel any feeling.

And I wouldn't wanna happen to you,

Cos I know that you mean it.

You have a laugh when you let go,

That makes a big unwanted side show.

Why count the times that you feel low?

When you shine.

Cos you're stone cold wise,

I'm in to what you are doing.

And I wouldn't wanna happen to you,

Cos I could never climb the walls that you walk through.

And it's the smiling lies

That always come to make you feel that I'm the one for
you.

I know it feels like you have spent your whole life with
people

Trying to keep you in your place.

And no one knows you know better than me,

When I say no, no, no, no.

And I wouldn't wanna happen to you,

Cos I could never climb the walls that you walk through.

But it's the smiling lies

That always come to make you feel that I belong with
you.

You pinned your hopes on me like I'm all you'll find.

But I wouldn't wanna happen to you this time,

I've gone away.
