

Embrace "Last Song"

know this is the last time
Goodbye to you my friend
What you had to offer won't be
Seen around here again
And I almost find myself
Content
To let my quits come in, because
I know this is the last time
Goodbye to you my friend

Your demise is a reminder
To the truth that we all face
Nothing is forever
Our efforts can go to waste
But you haven't left me empty
Even if it was just a taste
Your demise is a reminder
To the truth that we all face

It makes me wonder when the
Time will come for me to stroll
When the feelings I embrace
Have nothing left to hold
And the life that I've worked for
Can be bought and sold
It makes me wonder when the
Time will come for me to stroll
