I spend my days thinking of you and all we have done,

Praying you'll never think of me.

When you left my side, I took the freedom as a sign,

And left the past in flames behind me.

Yeah...

Cos I'd sooner owe you for all you have ever done,

Than ever bow down for you,

Find the will to hit and that's when you'll get your stick,

You keep your clinging fingers off me.

Everybody gets to breed,

Every adam every eve,

But the way that we lost out now, is to do it differently.

I want her and you want free,

That's the way that we lost out. you do.

If you can't bring it with you then don't you call,

No your not gonna find it here.

And the awful weight spread across me when I wake,

Is your loving arm across me.

Everybody gets to breed,

Every adam every eve,

But the way that we lost out now, is to do it differently.

I want her and you want free,

That's the way that we lost out. you do.
