Its your last
So save your breath
Your words your lies
I'm sick to death
You're ugly ways
Have left me dry
>From my seat right here
I'll watch you die
I can't live this way,
My head is vexed
With all the things that you relay
Go your way
I'll be fine
It's just like you
To leave me behind
My better days
Put in a box
With the seal of you
Upon the lock
I see you now
Loud and clear
Your looks so sharp
I can hardly hear
In this violet garden of lust
Save on me, play on me
You are a fallacy
Now it's on my face
The look of your disgrace
I'll play that card of fear
My wounds i will to sear
