Sometimes I wonder why  
They never could, could let me die  
Your body is my resting place now  
Can't move or speak like before  
I'm limited inside your thoughts  
And only by your sight I can be sure I exist

[1]

Darkness, when you dream at night  
Pain, you never know what it is like  
Hate, in envy you lost yourself  
Inside you, I'm your mirror image

[Chorus]

Inside you I can feel your anger  
It's just like hell but only colder  
Inside you, united with your dark mind

Through your eyes of eager  
See you end so many lifes  
I wonder why you keep going on  
Inside your head I'm your greatest triumph  
It's a joy for you knowing that I'm the watcher  
Trying to make me like you

[Repeat 1:]

[Repeat Chorus:]
