Night gleaming moon  
The hours passing fast  
Onto the bloodstained walls  
The victim's shadow is cast

My ears are deaf to the weakened cries  
Born my rapture in the final sighs  
A state of mind for the killing kind  
A fog of death leaving me blind  
Tearing flesh inverting the trinity  
Bastard child of god  
Delusion inside my lust  
Death delirium

Forcing you into death's affinity  
Drowning in your blood  
Ornated blade of rust  
Death delirium

Death my disease  
Saved me from the light  
A feast on your remains  
Your corpse carved up with delight

Red dripping down  
The urge of one defiled  
Haze my sweetest wish  
Is slaying your woman and child

I am laughing as your life's undone  
Your body is mine to savage now as you're gone  
The skin is torn sinners blade so cold  
Morbid end to massacres of old

Night gleaming moon  
The hours passing fast  
Onto the bloodstained walls  
The victim's shadow is cast

Death my disease  
Saved me from the light  
A feast on your remains

Your corpse carved up with delight

My ears are deaf to the weakened cries  
Born my rapture in the final sighs  
A state of mind for the killing kind  
A fog of death leaving me blind  
Tearing flesh inverting the trinity  
Bastard child of god  
Delusion inside my lust  
Death delirium

Forcing you into death's affinity  
Drowning in your blood  
Ornated blade of rust  
Death delirium
