Welcome to hell...

Oh, dear betrayer  
I hope you're burning well in hell  
Caress my word and let me see  
What you can endure  
Another thought, another day  
Another bleeding way  
Referred to as route 'Sick Sick Sick' to hell  
For those who walk behind me  
Welcome to an obscure world

Where would you draw the line?  
When you are gone so far  
Speak my name again and I will fuck you all!

Welcome to hell...

And we are sparking the fire  
And we're beside to see you fall  
And we stand tall in the riot  
Sneaking up on you to break your neck  
Break your neck

To see you fall  
To break your neck  
To see you fall  
To break your neck

I show no mercy and show no fear  
But fear my thoughts when I play this final game  
I am prepared for every move that's coming out  
Of your invalid brain  
But there is nothing to regret  
And there is nothing to forgive  
'Cause I will never forget that shit  
And you're merciless  
Oh dear, it's time to pay for pain

Where would you draw the line?  
When you are gone so far

Speak my name again and I will fuck you all!

And we are sparking the fire  
And we're beside to see you fall  
And we stand tall in the riot  
Sneaking up on you to break your neck  
To break your neck

Where would you draw the line?  
When you are gone so far  
Speak my name again!
