Seen it all before  
Too many times it repeats itself  
Again and again  
I feel it strong  
Stronger than before  
My hate grows more and more

Far too long we walked in this direction  
This time, this time I'm gonna be the one  
Get ready for the final destruction  
This time, this time the one you made me become

Now all this fucking shit  
Gives me no choice  
Inside my head a silent voice  
I can't take it no more  
My hate grows more and more

Far too long we walked in this direction  
This time, this time I'm gonna be the one  
Get ready for the final destruction  
This time, this time the one you made me become

In this world ruled by violence and lust  
You can only be betrayed by the people you trust  
In this world overflown by disgust  
You can't only be betrayed by the people you trust

In this world ruled by violence and lust  
You can only be betrayed by the people you trust  
In this world overflown by disgust  
You can't only be betrayed by the people you trust

Fucking slut!  
You're lying there  
You reach out for my hand  
But I don't care  
How can you dare?  
You fucking whore  
My hate grows more and more...

Far too long we walked in this direction  
This time, this time I'm gonna be the one  
Get ready for the final destruction  
This time, this time the one you made me become
