"Hard Labour Of Love"

I use to want my freedom more than anything at all
I thought love was just another ball and chain
Captured by her tenderness glad I took the fall
In your loving arms I shall remain

CHORUS

I'm looking for a lifetime of a hard labour of love
Gonna be so fine with the one I'm dreaming of
Ready to tow that line
I've been running long enough
I'm ready for a lifetime in
A hard labour of love

My friends all think I'm crazy for turning myself in
But I don't really care what people say
If maximum security's the best its ever been
Lock me up and throw the key away

REPEAT CHORUS 2 TIMES
