You're coming up like a flower
You're coming up through the cracks that live 'round
here
Everybody know we have no fear

We are the wind of change change coming
We take a stand where so many never go
We will shout it out to let you know
This is my generation

We want an answer to the questions
We wanna knock down all the walls they built for you
We wanna know the truth not be lied to

We want to know the face of freedom
We want to make a place where we can learn to love
Build a world that we can be proud of
This is my generation

'Cause we just wanna dance all night
Live inside the spark of life
This might be the only time around

'Cause we just wanna dance all night
Live inside the spark of life
This might be the only time around

You're coming up like a flower
You're coming up through the cracks that live 'round
here
Everybody knows we have no fear
This is my generation
