Sangre De Toro
(Keith Emerson/Carl Palmer)

Time to awaken daybreak begun
Feeling so strong here in the sun
The work has to be done, will be done
One thing that is believed we'll be one
But is there more Desde la vida

Sangre de toro, drinking the wine
Beneath la montan the shadows of time
Work now is done, has been done
Struggle that still goes on will be won
Knowing there's more Desde la vida

[instrumental break]

Again we awaken there in the face of the sun
El tiempo es buena, the time is good
A new day is born into our hands
Together we fall, together we stand
Hoping there's more Desde la vida
