(emerson - lake - palmer)

Will you stand up or will you freeze
That savage woman make you please
Turn your inside outside in
Still you don't know where she has been
Living sin

Can't you see through
She's going to realize the way to sound you

Finely ground you

Sudden
Never cured by a one night lover
Sell you

Stories of a meeting with a younger brother
Twisty
All the people lyin' were just a blind cover
No one
Ever gonna pry her from a two-faced mother

Can't you see through
She's going to realize the way to sound you

If you never saw it coming
Hooked you up with coca-cola coming
Nice and slippery
