I'd take it back to have the chance
To see her laugh, to see her dance
You, you never told me it would be so hard
And now you say that you can't stay
you can't stay so get away

This bedroom tells of our mistakes
Perfume and innocence to take
(I am) in love but not enough to wait
So take take your place down on my bed
I'm not the same man that you met
(I'll be) your lover but I'm not your friend

So let's go all the way
Let's go all the way
This dark road will lead
right where we want to be
You're driving so take the wheel

I'd take it back to have the chance
To see her laugh, to see her dance
You, you never told me it would be so hard
And now you say that you can't stay
you can't stay so get away

This clinic smells of death and shame
Misguided women with no names

(I guess) that you are not the ones to blame
I'll drop you off be back in ten
We'll never see this place again
(We will) recover but we won't repent

So let's go all the way
Let's go all the way
This dark road will lead
right where we want to be
You're driving so take the wheel
You're driving so take the wheel
You're driving so take the wheel
You're driving so take the wheel
OH!

You're driving so take the wheel
OH!!
You're driving so take the wheel
OH!!
You're driving so take the wheel
So take the wheel
So take the wheel
